OBJECTIVE

Penultimate-year Bachelor of Information Technology student majoring in Web and App Development at Macquarie University, with strong academic progression from Cert III to Diploma in IT Web Development. Adept at building responsive, accessible, and secure full-stack applications using HTML, CSS, JavaScript, PHP, and Node.js. Passionate about using intuitive UI design and modern back-end technologies to support real-world problem-solving - especially in sustainability and logistics.

KEY SKILLS

Front-End:

* HTML5, CSS3, JavaScript (ES6), Bootstrap, Vue.js (Foundations)

* Responsive UI design, accessibility, component-based SPA development

Back-End & Integration:

* PHP, Node.js, Express.js

* REST API development and consumption

* Authentication: JWT, 2FA, session management

Databases:

* MongoDB (Atlas), MySQL

Tools & Workflow:

* Git, GitHub, Postman, Swagger

* Agile (Scrum), Unit Testing (PHPUnit basics), Linux CLI

* PHPMailer (email integration)
